THE FUTURE OF CLUB TECHNOLOGY

Presented by

Jeremy Hoch and Jonathan Goodman
Anchor Consulting & Club Data Services

Technology is changing faster than ever. Jonathon Goodman and Jeremy Hoch will introduce you to many technology options available to private clubs that will help increase both member and employee satisfaction. They will cover a wide range of solutions that will benefit both the front and back of the house and everyone in between. You'll leave with many ideas that you will want to consider implementing for your club.

Meet Jonathon Goodman

Anchor Consulting Services

Club Data Services

After graduating from Arizona State University with a Master's in Agribusiness, I spent almost seven years in Southeast Asia with my base being in Hong Kong. I worked with a private Canadian company which specialized in K through 12 education for expatriates. We constructed four schools in China, Hong Kong, India and Singapore, with a satellite campus in Tokyo. After moving back to the United States, I worked for Merrill Lynch in the private client money management and after becoming a certified public accountant joined the firm of McGladrey & Pullen, LLP (RSMUS), where I started in the commercial audit practice but soon found by niche in the hospitality industry. After working for almost 8 years in South Florida, I transferred to Atlanta to service the national hospitality group. After leaving McGladrey, I landed on the other side of the table as a Director of Finance for Fairfield Glade Community Club in Crossville, Tennessee, and then I joined Frenchman's Creek in January of 2018 and finally settled down at Lost Tree Club in 2020.

Meet Jeremy Hoch

Anchor Consulting Services

Club Data Services

Jeremy Hoch is the president of Anchor Consulting Services, an independent firm that helps clubs find, implement and maximize their investments in private club technology. Working with hundreds of private clubs over the last 21 years, Jeremy has helped his clients identify areas of improvement and execute change using both simple and advanced technologies. Recently, Jeremy co-founded Club Data Services to elevate the reporting and business intelligence needs of private clubs. Jeremy is a contributor to industry publications and a regular speaker at local, regional, and national association meetings covering software optimization, accounts payable automation, and trends in private club technology.
